Introduced in 2018, the American Innovation® \$1 Coin Program is a multi-year series featuring distinctive reverse (tails) designs that pay homage to America's ingenuity and celebrate the pioneering efforts of individuals or groups from all 50 states, the District of Columbia, and the U.S. territories.

The Rhode Island American Innovation \$1 Coin recognizes naval architect Nathanael Herreshoff's famous *Reliance* yacht, which incorporated numerous technical innovations when it was built in 1891. The coin's reverse design depicts the famous *Reliance* yacht at full speed in the waters surrounding Rhode Island. The design is bordered by a rope evoking the nautical scene.

Inscriptions include "UNITED STATES OF AMERICA" and "RHODE ISLAND." The design was created by United States Mint Artistic Infusion Program (AIP) Designer Dennis Friel and sculpted by Mint Medallic Artist Phebe Hemphill.

The obverse (heads) of all coins in this series features a dramatic representation of the Statue of Liberty in profile with the inscriptions "IN GOD WE TRUST" and "\$1." It also includes a privy mark of a stylized gear, representing industry and innovation. AIP Designer Justin Kunz created the design, which was sculpted by Mint Medallic Artist Phebe Hemphill.

Incused on the coin's edge are "2022," the mint mark, and "E PLURIBUS UNUM."
